HW 2 – To be done as a team!!

1. Share your answer to HW #1, problem 2 with your team. Create a list of strengths and skills that you, as a team, possess.
2. Do a brainstorming exercise to come up with a team name and logo.
3. Develop a rating system for effectiveness of team meetings. How will you measure success of a meeting?
4. Research existing devices similar to your project (as similar as possible). Prepare an evaluation table for your design based on client needs. This will provide you with the needed inputs/outputs for your design – for the following week.
