## Assignment TicTacToe C++ Code Review Rubric

There is a 25% per day penalty for committing your code late. In addition, we will scale your grade down if your submission is substantially incomplete. Items marked with \* are particularly important.

1	Automatic Testing (25%)
	Important classes of valid inputs are tested* Likely errors, corner cases, off-by-one errors are tested Invalid inputs are tested Tests well documented through naming (or comments if necessary) Tests are well-organized (logical grouping/order, generally one assertion per test Test developed before and with code not after
2	C++~(25%)
	Good C++ Style Use of proper separation of code and headers Appropriate use of library such as std:string
3	Overall Design (15%)
	Solution approach is well thought out Code is logically organized Code is easy to read Avoids unnecessary repetition ("Don't repeat yourself") Fixes implemented since the Java version
4	Process (25%)
	Code was checked-in periodically/progressively in logical chunks Meaningful commit messages
5	Presentation and Participation (10%)
	Good selection of topics to focus on and logical order of presentation Engaged and paying attention to other students presentations
	Asks questions and/or makes comments that further the discussion
	Explains reasoning for why something is good or bad Behaves respectfully to moderator and other students
