Purpose

The purpose of this assessment is to identify strengths and areas for improvement in a particular class period’s materials. Your assessment should cover the pre-lecture (video and slides) and the activities. You may optionally comment on the discussion that happened during the class period.

The \LaTeX source for this document is available on the course web site.

Subject

Which lecture are you assessing?

Objectives

What were the objectives and learning goals for this lecture? In your opinion, did the materials achieve these objectives?

Strengths

What are some of the strengths of the materials?

Improvements

What are one or two changes that could most improve the materials?
Quality Control

- Were there any errors in the materials that should be addressed?

- Were any of the topics more difficult to understand than they should be? (I.e., the presentation of the topic made it more difficult to understand.)

- Did you make use of any external resources to help you learn the material? Should the instructor provide links to them?

- In your opinion, why was this topic deserving of a lecture slot? Do you feel like you understand how it fits into the big picture of this course?

- Do you think there were topics that this lecture skipped over that should be covered?

- Any other thoughts or feedback?
