- Reporting via web page (plus submit code)
- Software/hardware
  - Python
  - Machines available in EWS labs

# Getting help outside of class

## Office hours

- See website: <https://courses.grainger.illinois.edu/cs445/fa2019/>
- Let us know if you can't make any of those times

## Linear algebra tutorial

## Readings/textbook

# Grades

- Written and programming assignments (55%)
  - Core projects worth total of 500 points, “bells and whistles” for additional points
  - Undergrads graded out of 500, grads out of 600
- Exam (25%)
- Final Project (20%)
- Participation

## Late policy

- Up to five free days total – use them wisely!
- 10 point penalty per day after that

# Team Project Course (optional)

- To fulfill the “team project” undergraduate requirement register 1 credit for CS 497
- Form team of 3+
- Work throughout semester on final project with extra milestones
  - Sept 20: Team and topic proposal
  - Oct 18: Detailed project plan
  - Nov 18: First half of project complete
  - Final exam period: Complete project due

# Academic Integrity

- Can discuss projects, but don't show/share code
- Don't look up code (even to get hints) or copy from a friend
- If you're not sure if it's allowed, ask
- Acknowledge any inspirations
- If you get stuck, come talk to me

# Other comments

## Prerequisites

- **Linear algebra**, plus some basic calculus and probability
- Experience with graphics, image processing, or Python will help but is not necessary

## Your own camera

- Strongly recommended
- Pro camera apps for smartphones

# New for this semester

- Professional lecture recordings + green screen
- Projects in Python instead of Matlab
- Deep learning
  - Featured heavily in image generation and face understanding lectures, but *not* a focus of this class
- Travel / family
  - Out next Mon to Thurs (9/2-9/5) for grant meeting
  - Expecting new baby, due date Oct 24

Feedback is welcome

# Final comments

- Resist the urge to start packing up on the last slide
- Reasons to not take the course...
- To do now
  - Any Q's or concerns, come talk to me!
- To do later
  - Look over syllabus, etc.
  - Sign up for Piazza
- Next class: pixels and basic filtering
