I-clicker use in ECE 329

Participation counts towards 1% of your grade. The instructors will use i>clickers to take attendance and check student understanding of concepts starting with lecture 4. We will practice and check that they work in lecture 3. You can use the original i>clicker, i>clicker plus, or i>clicker 2. Unfortunately, we cannot support i>clicker Go because of potential wireless connection issues. Please register your i>clicker before lecture 3 by logging into Compass 2g and selecting i>clicker Registration from the tab on the left (you may need to first click the link: **Spring 2019-ECE 329-Fields and Waves I-Sections E, F, X** under your course list). Also, in some versions of Compass, the left tab is hidden and you have to hover near the corner until it reveals itself.

It is your responsibility to bring your i>clicker to each class and for it to have working batteries. You can also attend any section during the day for attendance credit. **No credit will be given if you were unable to vote that day for whatever reason. Please do not ask for exceptions to this policy. Further, there are no excused absences.** However, you can miss up to 5 classes and still receive the full 1% participation. Each absence beyond 5 will reduce your participation by 10% of the 1%, i.e. 0.1% for your total grade. Over 15 absences results in a 0% participation score. The attendance scores will be posted to Compass 2g about once per week.
