ENG 198 Technical Communication

“Achieving Excellence in your Presentations”

Dr. Jennifer Amos
Bioengineering Department

Dr. Marie-Christine Brunet
College of Engineering
This class would not exist without our trip to Penn State U

http://www.engr.psu.edu/ambassadors/

http://ambassadors. engr.illinois.edu
This class will train you in being a star communicator
Some perceptions that middle and high school students have about engineering need to be reshaped
Our messages should be guided by the findings of the National Academy of Engineering

Engineering makes a world of difference

Engineering encourages creativity

Engineering is essential to our health, happiness, and safety
This class will discuss strategies for how to be successful in three critical areas of your presentations.

- **Content**
- **Visual Aids**
- **Delivery**
This class will train you to be an excellent communicator

By the end of class, you will be able to...

- Critique presentations
- Design effective slides
- Identify content for audience
- Interact in teams
This class will train you to be an excellent communicator

Higher expectations lead to higher return

Your investment  

Your return
The grading scheme takes into account three parts

Grading Scale
A+ > 97%
A > 90%
B > 80%
C > 70%
D > 60%
F < 60%

What can go wrong with poor communication?

https://www.youtube.com/embed/rgOfmaCSDPg
It is important you start thinking about engineering topics that interest you

NEXT CLASS, Wednesday 9am we will:
- brainstorm topics (engineering!)
- plan for first presentation (next week!)
Resources Week1-1
